“What is the role of Trauma Informed practice in policing, community engagement and place-based delivery?”

Learning outcomes:

June 21st-22nd
2022

1. Showcase trauma informed theory that has developed into strategic and/or tactical practice
2. Create a space to share and develop our understanding of the existing evidence base of trauma informed practice in policing across the four nations.
3. Co-produce the conference with those with lived experience
4. Share good practice in trauma aware/trauma sensitive/trauma responsive and trauma informed policing in a policing and a police partnership context.
5. Learn about new and developing trauma informed theories and how they impact on policing and its role in the wider criminal justice system.
6. Understanding and demonstrating examples of the breadth of partners relevant to trauma informed policing
7. Assist attendees with trauma informed organisational development
