Culture, Diversity, and Criminal Justice

Towards Culturally Safe Criminal Justice Systems

Edited by Alex Workman, Ranya Kaddour, and Patricia M. Griffin

This ground-breaking textbook engages readers in conversation about responding to the effects of diversity within formal criminal justice systems in Westernized nation-states. Moving past a binary concept of diversity that involves only race and gender, this book elaborates upon a wide variety of other forms of diversity, including sexuality, disability, mental health, gendered identity, refugees, the young and the ageing, and culturally and linguistically diverse (CALD) peoples, with an awareness of how intersecting identities make some people more vulnerable than others.
